

# Reynard

Health Supplies(UK)

## Skin care range

*Reynard impregnated skin care wipes provide fast, pleasant and convenient skin cleansing and moisturising, whilst reducing cross-infection risks.*

**Developed by UK chemists, Reynard impregnated wipes provide gentle, effective and convenient skin cleansing, whilst reducing cross-infection risks. Suitable for a wide variety of uses from healthcare through to travel and leisure. Reynard wipes are ideal anywhere running water is not available.**

### **Better for the skin**

Formulated with no soaps or harsh chemicals that could dry the skin or alter its acid mantle. Reynard wipes are leave-on, quick dry products ideal for sensitive skin.

### **Better for the carer**

Simpler cleansing and bathing processes.

### **Cost effective**

Reynard wipes eliminate the need for soaps, water, bowls, flannels and towels. Saves on laundering costs as well as time.

### **Reduce cross-infection risks**

Disposable Reynard wipes are designed for single use therefore reducing cross-infection risks.

### **Intensive care**

Bathing the patient with Reynard wipes presents a viable alternative to bowls of soapy water which is a challenge in post-operative or palliative care situations.

### **Usage areas:**

- Anywhere there is no running water.
- Hospitals
- Aged care facilities
- Palliative care
- Hunting, fishing, camping
- On the road

**Always read label & product information before use.**

### **Supporting documentation**

Full technical specifications are available upon request.

### **Bespoke solutions**

Should your market require alternatives to the normal product, we are more than happy to develop bespoke solutions
